PROFESSIONAL SUMMARY

I am a UI/UX designer with a background in IT, now moving into digital marketing. I have experience creating visuals and managing social media platforms using Meta Business Suite. My goal is to use my design skills and digital strategy to help brands grow and engage more people online.

EDUCATION

- **Sri Lanka Institute of Advanced Technological Education - Galle**
  Course: Higher National Diploma in Information Technology **Sep 2023 – Present**
- **G/Prajapathi Gothami Girl's College, Ambalangoda**
  • GCE Advanced Level – Physical Science Stream **2021**
  • GCE Ordinary Level **2018**

EXPIRIENCE

UI/UX Design Intern(Remote) | Gamage Recruiters *October 2025 – April 2026*

- Created low and high-fidelity wireframes and UI designs for web and mobile projects to improve the user experience.
- Participated in regular team meetings to share design ideas and collaborate on project updates.
- Worked closely with the team to ensure designs were practical and met the project requirements.
- Managed social media content scheduling and engagement using Meta Business Suite.

PROJECTS

AI Story-based Content: "Leo & Mimi Journey"

- Created an original story called "Leo & Mimi Journey" to practice digital storytelling for social media.
- Used AI tools (Glork AI) to produce engaging video content and visuals.
- Used Whisk AI to create consistent character designs, ensuring the characters looked the same throughout the entire project.

Financial Tracking App (UI/UX Design)

- Designed a mobile app interface to help users manage their daily spending and savings easily.
- Created clean dashboards that turn complex financial numbers into simple, easy-to-read charts.
- Focused on the User Experience (UX) to make sure the app is smooth, helpful, and very easy for anyone to use.

EduPath – Modern E-Learning Platform (UI/UX Design)

- Conducted user research to identify problems in current e-learning platforms and collected user needs.
- Designed an intuitive course selection process to make the learning experience smoother and faster.
- **Tools:** Figma, Photoshop, Recraft.

Fitness Landing Page (UI/UX Design)

- Created a high-converting landing page designed to keep users interested and engaged.
- Focused on clear communication and visual hierarchy to help users find information quickly.
- **Tools:** Figma, Photoshop, Recraft.

CERTIFICATION

- **UI/UX Engineer Bootcamp** – STEM Link (Issued Dec 2025)
- **Build Wireframes and Low-Fidelity Prototypes** – Google | Coursera (Issued Nov 2025)
- **Foundations of Digital Marketing and E-commerce** – Google | Coursera (Issued Nov 2025)
- **LottieFiles for Figma Course** – LottieFiles (Issued Sep 2025)
